

# Licensing Task Force Healthcare Subcommittee

---

## HEALTHCARE BOARD COMPOSITION DATA REQUESTS

At the Healthcare Subcommittee's organizational meeting on February 13, 2026, the committee discussed several topics that may be potential administrative barriers for healthcare licensees, including board structure and composition of licensing boards. Comments during the meeting indicated that due to board structure and potential low frequency of meetings, there may be a longer wait time for review on non-routine applications.

The following pages list each healthcare related licensing board and outline the makeup of the board, according to its statutory authority. For each board, the data shows the:

- Statutory authority for the board
- License type (if the license type is represented on the board, it is in **bold**; if it is not represented on the board, it is in *italic*)
- Number of active licenses
- Number of board seats allocated to each license type
- Percentage of the board each license type (or the public) represents, and
- Percentage of the Total active licenses each allocated license type represents on the board

# Board of Alternative Health Care

Statutory Authority: 2-15-1730. Alternative health care board, MCA
